## News and the Jews

The week in review

### P.A. Honors Murderer

Four American soldiers were killed in a suicide carbomb attack in Iraq and the Iraqi Vice President has warned that that's "only the beginning." The bomber, dressed in civilian clothes, drove a taxi to a checkpoint near the city of Najaf, waved to the soldiers, and then detonated the explosives as the troops approached. The Iraqi government awarded the suicide murderer, a soldier in the Iraqi army, two posthumous medals for his act, as well as the equivalent of \$35,000 for his family.

The PA, world leader in producing such suicide murderers, showed its admiration for the attack by renaming the main square in a Jenin neighborhood in the northern Shomron in memory of the murderer.

### Israeli Arab

The Magistrate Court of Acco (Acre) has lifted the gag order on the arrest of three Israeli Arabs from the Galilee village of Manda for involvement in a terrorist organization. According to the charges to be filed against them, the three, cousins from the same village, volunteered for the Islamic Jihad and were asked to carry out terrorist attacks against Jewish targets. The three confessed to the charges against them and conformed their intention to carry out a terrorist attack against mall-goers in Haifa.

### As If By Miracle

Netanya was once again the scene of a major bombing attack but this time, as if by miracle, no one was killed. It was just a year and three days ago that an Arab terrorist blew himself up in a Netanya hotel where hundreds of people were celebrating the Passover Seder, killing no fewer than 29 people.

## STUFF you should know

### "I Hate Israel" - the Movie!

"Shabaan Abdul Rahim prays that Ghada Rizik will hate Israel". That is the title of an article appearing on the Arab news website Albawaba.com. The article describes the casting efforts of popular Egyptian singer Sha'aban Abdel Raheem for his new movie, "Ana Bakrah Israil" (I Hate Israel). The title of the planned blockbuster was taken from Abdel Raheem's 2001 international hit song of the same name, in which the singer declares his hatred for Israel and the Jews, and his love for Yasser Arafat, Hosni Mubarak, and Arab League chairman Amr Mousa. At one point, in the song's chorus, Abdel Raheem sings, "I hate Israel. I hate the Jews, I hate them. I hate them because they are annoying. All people hate them."

Sha'aban's latest Arabic hit is called "The Attack on Iraq", and portrays America as warmongers acting on behalf of Zionism. "Chechnya! Afghanistan! Palestine! Southern Lebanon! The Golan Heights! And now Iraq, too? And now Iraq, too? It's too much for people. Shame on you! Enough, enough, enough!..." the Egyptian artist sings, "Sharon stays in a swimming pool while the blood falls like rain."

## PEOPLE of the BOOK

### There will be a slaughter for G-d in Batzra Part II

The Yalkut Shimoni states that in the year when Mashiach will come: Nations will challenge each other, the King of Persia will challenge an Arab king, and all nations of the world will panic and be seized by consternation. [G-d will tell the Jews:] "My children. Do not fear. Everything which I have wrought, I have performed only for your sake. The time for your redemption has come."

Surely, these events will bring no harm to the Jewish people, particularly those living in Eretz Yisrael, "the land where the eyes of G-d, your L-rd, are always upon it, from the beginning of the year until its end." On the contrary, Eretz Yisrael is the safest place in the world.

The gentiles will not be able to harm the Jews. Those who have suffered harm will surely be healed immediately. And even before the imminent coming of the redemption, "All the children of Israel will enjoy light in their dwellings."

The knowledge of the imminence of Mashiach's coming should inspire an increase in our observance of the Torah and its mitzvos for, as the Rambam writes, "one mitzvah can tip one's individual balance... and that of the world at large and bring deliverance and salvation."

May we soon no longer need any signs for Mashiach's coming because, in the closest and most immediate future -- he will come.
