NEWS and the JEWS

The week in review

Terror Doctor

The IDF captured a wanted terrorist Tuesday night when he was taking advantage of the relatively free passage granted to PA ambulances. He was disguised as a doctor, but alert soldiers at a roadblock near Brachah, just southwest of Shechem, detected and arrested him. The IDF Spokesman announced afterwards, "Claims are often raised against holding up ambulances at checkpoints for security checks. Cases such as this prove the evident need for these checks. In addition, IDF soldiers are direct to ensure that in humanitarian cases and medical emergencies, the ambulances must be allowed to pass as fast as possible."

Upping The Anti

The PA is getting ready to take its war against Israel a step further. Arabs of the autonomous areas have set up rocket launchers in cities adjacent to pre-1967 Israel. Israel's defense establishment has received information from several sources to the effect that Hamas recently transferred a small number of launchers and Kassem-2 shells from Gaza to Yeshu cities. The Kassem-2 has a range of up to 8

kilometers (5 miles), but is not known for its accuracy. IDF officers told Ha'aretz that the terrorists are expected to start firing the rockets in the near future, and Israel has warned the PA that such actions would be greeted with an Israeli response "of a different magnitude of order entirely." Prime Minister Sharon said last week that such use of the missiles would be the "crossing of all red lines."

Enemy Within

Deputy Minister of Internal Security Gideon Ezra, a former deputy director of the GSS (General Security Service - Shin/Bet), on Thursday warned of the dangers posed by Arab MKs, stating, "They are not on our side. They support Arafat and are causing us significant damage". Ezra made his remarks during a police ceremony in the capital.

Land Mines...

Police on Thursday night discovered a cache of 60 landmines in the village of Yafia, near Nazareth. Police bomb squad personnel were summonsed to render the mines harmless. Police are investigating.

AG Getting Tough On Terror

Attorney General Elyakim Rubinstein has ordered an investigation into the printing and disseminating of the bumper sticker "No Arabs - No Attacks". Rubinstein stated the sticker was a violation of the laws against incitement to racism.

PEOPLE of the BOOK

Discussing Autonomy Plans Is A Desecration Of G-D's Name

You understand Arabic, so go and ask the Arabs who live there what their intention is in discussing a five year autonomy plan. You will see that they will tell you that their intention is that they will actually be given parts of Eretz Yisroel for the purpose of establishing a Palestinian state. It automatically follows that it is totally irrelevant how the Jews wish to interpret it because what matters is how the gentiles view the issue.

The very act of discussing autonomy plans is a desecration of G-D's Name and holiness. The fact that there are individual Jews in Eretz Yisroel who do not keep Torah and Mitzvos relates specifically to desecrating their personal lives, but here we are discussing a situation in which the government of Israel will publicly declare war against G-D and His Torah.

STUFF you should know

Behind The News

Lies and distortions whose aim is to create revulsion and hatred toward Israelis and Jews are published and broadcast regularly in the Palestinian media. An article appeared in the official PA daily in which Israel is accused of using Palestinian body parts for evil purposes.

"... When the occupying authority holds the bodies of martyrs... it does so in order to hide the traces of its crimes. The witnesses and evidence prove that the occupation forces torture the bodies of the martyrs on purpose and fire bullets into them at close range... There are clear indicators that the occupying authorities steal body parts of the martyrs during the holding process, in order to use them in Israeli hospitals, especially for Israeli patients in need of transplants. After they seize the body parts of the martyrs, they bury the corpses... under dubious circumstances, scorning humanitarian values and moral and religious regulations. Legal authorities noted that the occupation's refusal to surrender the bodies of the martyrs to their families is intended to hide the truth of their non-humanitarian practices on the bodies of the martyrs..."

SAY WHAT?

American Mafias

"... America from the start did not deserve the role of sponsor but that of the enemy... Washington supports Jewish fundamentalists, dictatorships and fascist states, sponsors rotten governments, is the source of authority for Mafias..."

Al Hayat Al Jadida, Jan. 28, 2002
